TABLE OF CONTENTS

	Pages
Introduction	I
Charts Showing Monthly and Yearly Traffic Variations	Plates I - II
Traffic by Sections on Primary System	1 - 76
Traffic by Sections on Secondary System	77 - 127
Primary Rural Route Summary	128 - 130
Interstate Rural Route Summary	131
Secondary Rural Route Summary	132 - 134

INTRODUCTION

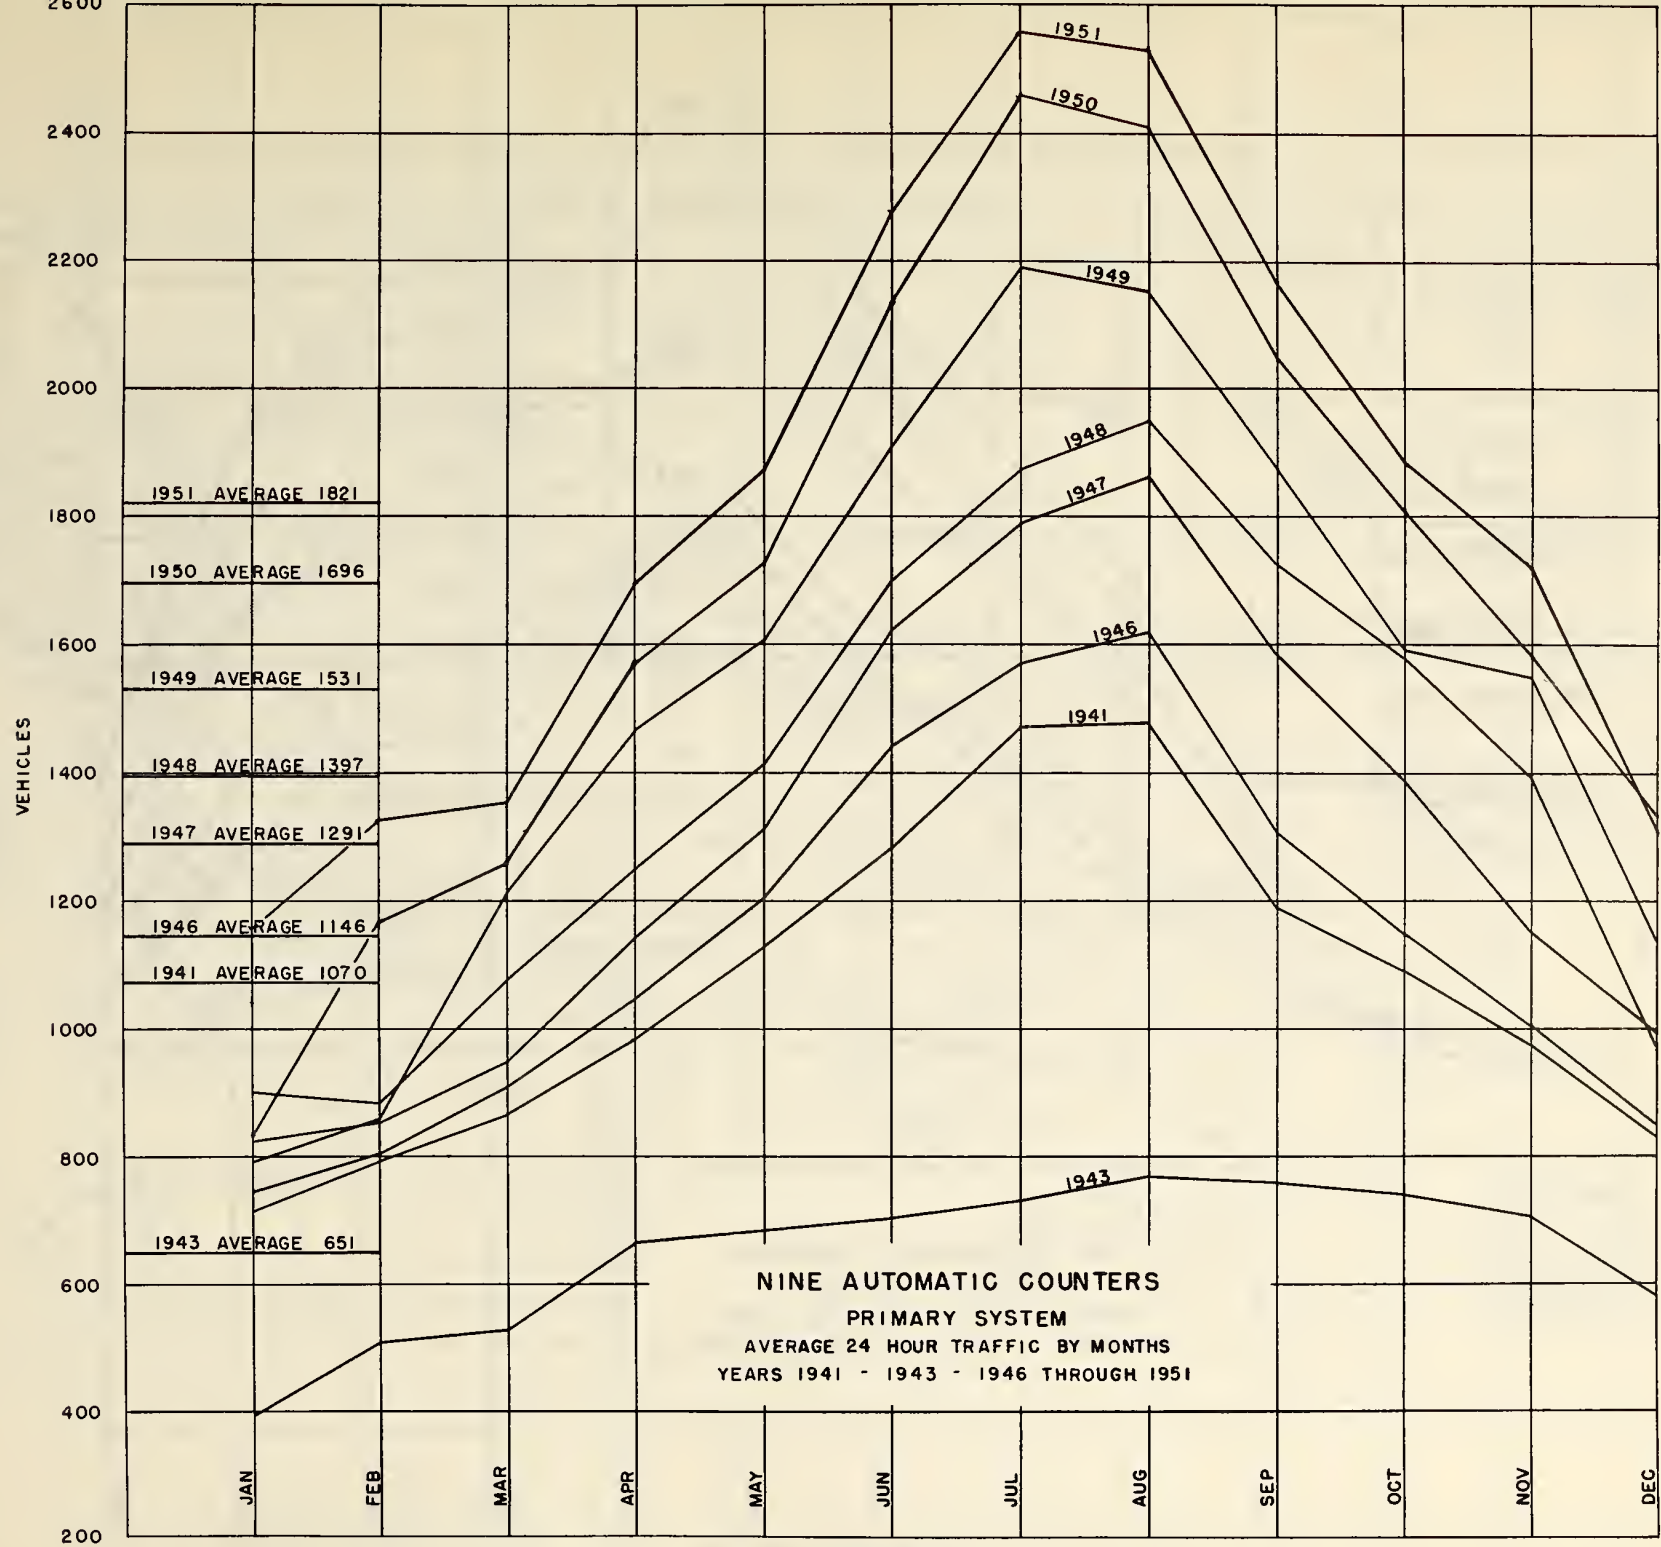

Traffic on Montana's highways was measured and classified to a limited extent before the Montana Highway Planning Survey was established in 1936. It has only been since the inception of the Planning Survey, however, that an attempt has been made to systematically sample traffic and compute average daily figures for each year on all of the more heavily traveled roads and highways in the State.

Figures shown in this report are derived from continuous counts made by photoelectric cell recorders at twenty locations, manual counts taken three times per year seasonally at 134 locations and 48 hour portable machine counts made seasonally at approximately 1200 locations.
